#### DETAILED ACTION

### Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/13/02 has been entered.

## Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the first paragraph of 35 U.S.C. 112:
  - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 3. Claims 25-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The subject matter representing new matter is the definition for "T" in the claims, wherein "T" is defined as:
- "-U¹-O-( $C_mH_{lm}O_m$ )<sub>n</sub>-( $C_mH_{lm}O$ )<sub>o</sub>-R<sup>6</sup>". This formula does not appear in the originally filed specifications.

Art Unit: 1713

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 25-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

6. As with the pervious claims, the newly submitted claims are still generally indefinite. Still no useful prior art search/determination is possible due to the general indefinite nature of the claims.

#### For instance:

- 7. The term "oxyalkylenealkylglycol-alkylene ethers" in line 3 of each of claims 25, 27 and 34, from at least one of which the balance of the claims depend, is not art recognized terminology and is not clearly defined in the written description as to put one reasonably skilled in the art in position of what applicant intended to so define by claim term. It is unclear what compounds are to be encompassed or excluded by "oxyalkylenealkylglycol-alkylene ethers".
- 8. Regarding the variable "<sub>Im</sub>" in the claims (see the Final rejection), while applicant does recite in the claims that "the index on the hydrogen atom [are] formed by the

Art Unit: 1713

product of "i" and "m", one reasonably skilled in the art would still be unclear as to what applicant is intending to define by the formula.

If "<sub>lm</sub>" is the index of hydrogen atoms and is the product of "<sub>l</sub>" and "<sub>m</sub>", wherein "<sub>l</sub>" is "1" or "2", then according to this formula, if "<sub>l</sub>" is "1" and "<sub>m</sub>" is "2", "<sub>lm</sub>" would be "2" and, according to the claims, X would have the structure:

, which is not consistent with a

polyalkylene oxide moiety.

Similarly, in the definition for "T" in the claims, "T" is defined as representing:  $-U^{1}-O-(C_{m}H_{lm}O_{m})_{n}-(C_{m}H_{lm}O)_{o}-R^{6} \text{ and "}U^{1}\text{" is defined as representing, among other things, "-O-", which would lead to a peroxide outside of applicant's scope of enablement.}$ 

Applicant's formula cannot structurally conflict with the compounds it is indented to represent.

9. Also, claims 25, 27 and 34 each recite:

"where, in the last three radicals,

 $V = -O-CO-C_6H_4-CO-O- \ , \ or \ -W-; \ or \ -COOR^5, \ in \ the \ case \ where \ S \ is \ --COOR^5 \ or \ COOM_a;"$ 

However, only **one** of the last three radicals in this recitation even contains a "V" variable.

Art Unit: 1713

The claimed formulas are still indefinite.

## Response to Arguments

10. Applicant's arguments filed 10/24/03 have been fully considered but they are not persuasive. See above.
